

FXS-200 COOLING TOWER SPECIFICATION

Manufacturer	RYOWO (HOLDING) CO., LTD.																																																																																																																																																												
Type	Induced Draft Cross Flow Vertical Discharge Type																																																																																																																																																												
Origin	China																																																																																																																																																												
<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 5%; text-align: center;">1</td> <td colspan="2">Design Condition</td> </tr> <tr> <td></td> <td>Nominal Flow (m³/hr)</td> <td>124.0</td> </tr> <tr> <td></td> <td>Water Out Temp.</td> <td>32°C</td> </tr> <tr> <td></td> <td>Water In Temp.</td> <td>37°C</td> </tr> <tr> <td></td> <td>Ambient Wet Bulb Temp.</td> <td>28°C</td> </tr> <tr> <td colspan="3" style="height: 20px;"></td> </tr> <tr> <td style="text-align: center;">2</td> <td colspan="2">Overall Dimension</td> </tr> <tr> <td></td> <td>Length (mm)</td> <td>3100</td> </tr> <tr> <td></td> <td>Width (mm)</td> <td>3100</td> </tr> <tr> <td></td> <td>Height (mm)</td> <td>4500</td> </tr> <tr> <td></td> <td>Net Weight (kgs)</td> <td>2300</td> </tr> <tr> <td></td> <td>Operating Weight (kgs)</td> <td>3800</td> </tr> <tr> <td colspan="3" style="height: 20px;"></td> </tr> <tr> <td style="text-align: center;">3</td> <td colspan="2">Motor</td> </tr> <tr> <td></td> <td>Type</td> <td>TEFC</td> </tr> <tr> <td></td> <td>Volt/Phase/Hz</td> <td>380/3/50HZ</td> </tr> <tr> <td></td> <td>Power</td> <td>7-1/2HP 5.5KW</td> </tr> <tr> <td colspan="3" style="height: 20px;"></td> </tr> <tr> <td style="text-align: center;">4</td> <td colspan="2">Fan</td> </tr> <tr> <td></td> <td>Type</td> <td>Axial</td> </tr> <tr> <td></td> <td>Diameter (mm)</td> <td>2400</td> </tr> <tr> <td></td> <td>No. of Fan</td> <td>1</td> </tr> <tr> <td></td> <td>Transmission Type</td> <td>Vee Belt</td> </tr> <tr> <td colspan="3" style="height: 20px;"></td> </tr> <tr> <td colspan="3" style="height: 20px;"></td> </tr> <tr> <td colspan="3" style="height: 20px;"></td> </tr> </table>	1	Design Condition			Nominal Flow (m ³ /hr)	124.0		Water Out Temp.	32°C		Water In Temp.	37°C		Ambient Wet Bulb Temp.	28°C				2	Overall Dimension			Length (mm)	3100		Width (mm)	3100		Height (mm)	4500		Net Weight (kgs)	2300		Operating Weight (kgs)	3800				3	Motor			Type	TEFC		Volt/Phase/Hz	380/3/50HZ		Power	7-1/2HP 5.5KW				4	Fan			Type	Axial		Diameter (mm)	2400		No. of Fan	1		Transmission Type	Vee Belt										<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 5%; text-align: center;">5</td> <td colspan="2">Material</td> </tr> <tr> <td></td> <td>Air Inlet Louver (Optional)</td> <td>FRP</td> </tr> <tr> <td></td> <td>Basin</td> <td>FRP</td> </tr> <tr> <td></td> <td>Bolt & Nuts</td> <td>Electroplated</td> </tr> <tr> <td></td> <td>Casing Panel</td> <td>FRP</td> </tr> <tr> <td></td> <td>Distribution Tray</td> <td>FRP</td> </tr> <tr> <td></td> <td>Eliminator</td> <td>FRP</td> </tr> <tr> <td></td> <td>Fan Blade</td> <td>Al. 1	Design Condition																																																																																																																																																												
	Nominal Flow (m ³ /hr)	124.0																																																																																																																																																											
	Water Out Temp.	32°C																																																																																																																																																											
	Water In Temp.	37°C																																																																																																																																																											
	Ambient Wet Bulb Temp.	28°C																																																																																																																																																											
2	Overall Dimension																																																																																																																																																												
	Length (mm)	3100																																																																																																																																																											
	Width (mm)	3100																																																																																																																																																											
	Height (mm)	4500																																																																																																																																																											
	Net Weight (kgs)	2300																																																																																																																																																											
	Operating Weight (kgs)	3800																																																																																																																																																											
3	Motor																																																																																																																																																												
	Type	TEFC																																																																																																																																																											
	Volt/Phase/Hz	380/3/50HZ																																																																																																																																																											
	Power	7-1/2HP 5.5KW																																																																																																																																																											
4	Fan																																																																																																																																																												
	Type	Axial																																																																																																																																																											
	Diameter (mm)	2400																																																																																																																																																											
	No. of Fan	1																																																																																																																																																											
	Transmission Type	Vee Belt																																																																																																																																																											
5	Material																																																																																																																																																												
	Air Inlet Louver (Optional)	FRP																																																																																																																																																											
	Basin	FRP																																																																																																																																																											
	Bolt & Nuts	Electroplated																																																																																																																																																											
	Casing Panel	FRP																																																																																																																																																											
	Distribution Tray	FRP																																																																																																																																																											
	Eliminator	FRP																																																																																																																																																											
	Fan Blade	Al. Alloy or FRP																																																																																																																																																											
	Fan Hub	GI + Al. Alloy																																																																																																																																																											
	Fan Guard	Hot Dip Galv. Steel																																																																																																																																																											
	Fan Stack	FRP																																																																																																																																																											
	Infill	PVC																																																																																																																																																											
	Infill Support Mesh	Hot Dip Galv. Steel																																																																																																																																																											
	Ladder	Hot Dip Galv. Steel																																																																																																																																																											
	Motor Support	Hot Dip Galv. Steel																																																																																																																																																											
	Strainer	SS 304																																																																																																																																																											
	Structure	Hot Dip Galv. Steel																																																																																																																																																											
	Sump Tank	FRP																																																																																																																																																											
	Pulley Box	FRP																																																																																																																																																											
6	Piping																																																																																																																																																												
	Inlet (Dia/Qty)	ø 150mm x 1																																																																																																																																																											
	Outlet (Dia/Qty)	ø 150mm x 1																																																																																																																																																											
	Overflow (Dia/Qty)	ø 50mm x 1																																																																																																																																																											
	Drain (Dia/Qty)	ø 50mm x 1																																																																																																																																																											
	Make-up (Dia/Qty)	ø 25mm x 1
